

Consideraciones oclusales en la práctica estomatológica

teoría

práctica

Dr. CE. Rolando Castillo Hernández

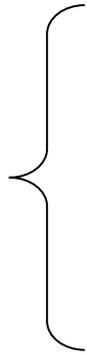

Empaquetamiento de alimentos

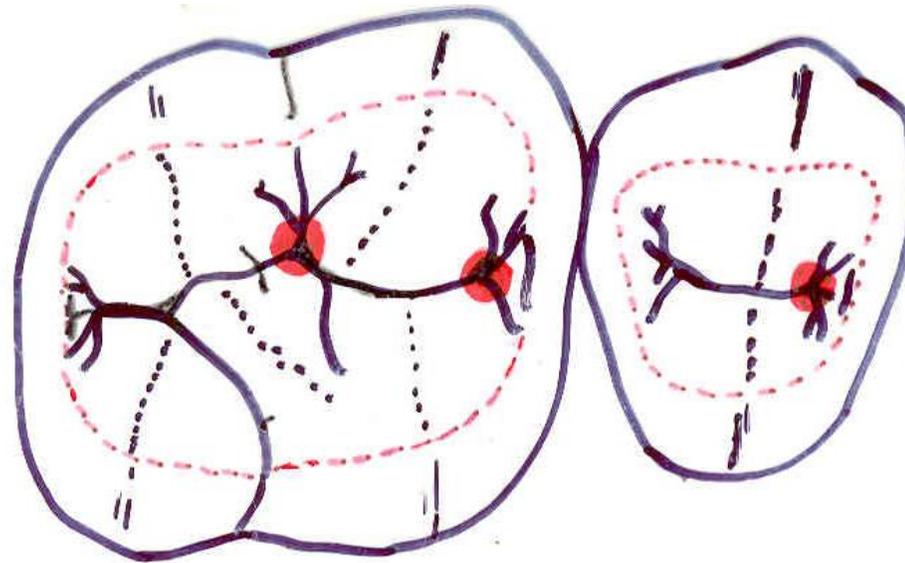

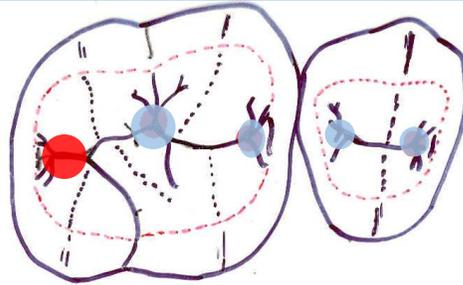

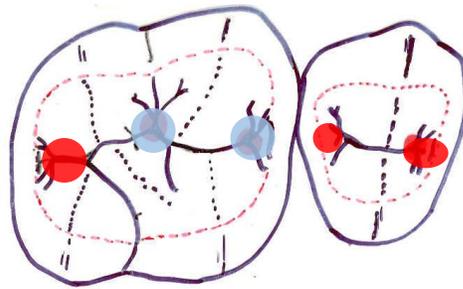

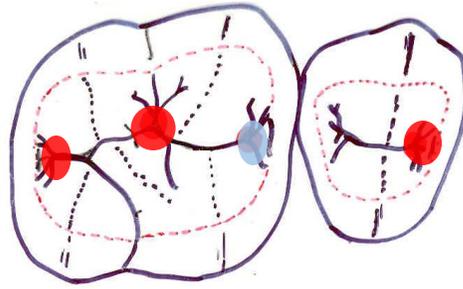

FOSAS

- **Funcionales**

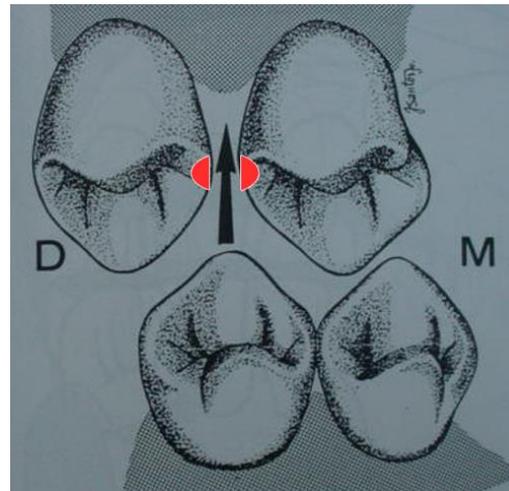

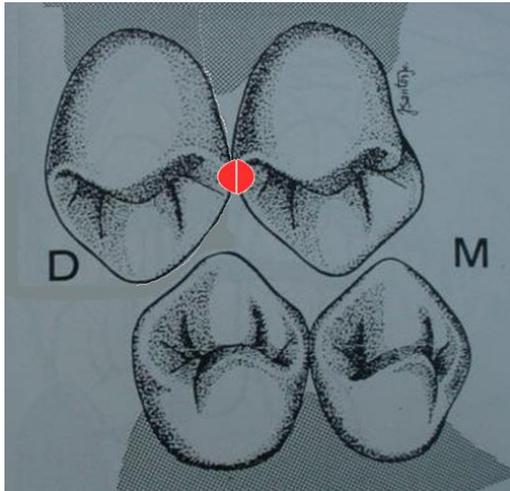

- **Suplementarias**

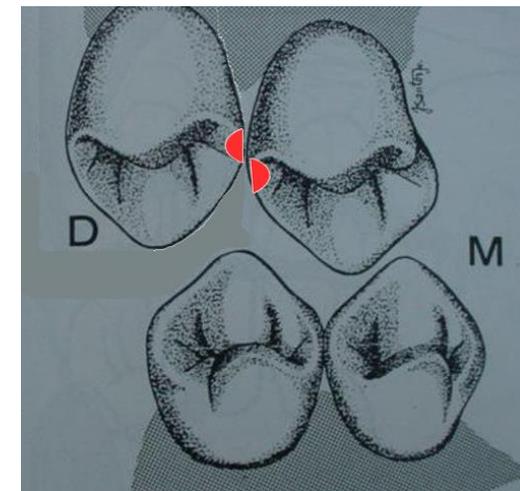

Empaquetamiento de alimentos

Falta de contacto

Desnivel vertical

Empaquetamiento de alimentos

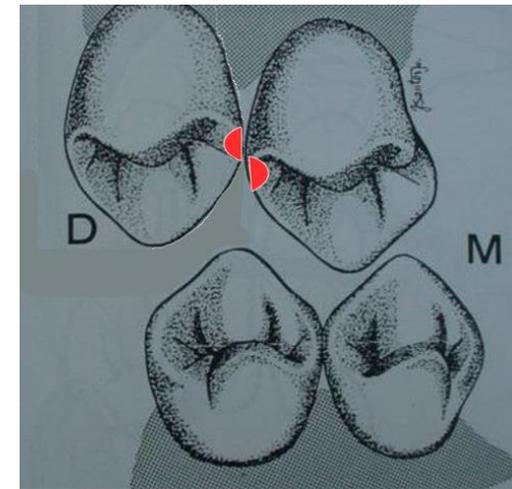

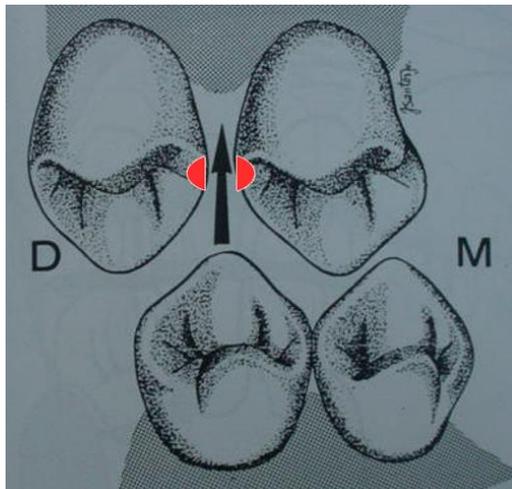

- Fosas funcionales
- Cúspides de soporte
- Rebordes marginales
- Relación de molares
- Relación de premolares

Empaquetamiento de alimentos

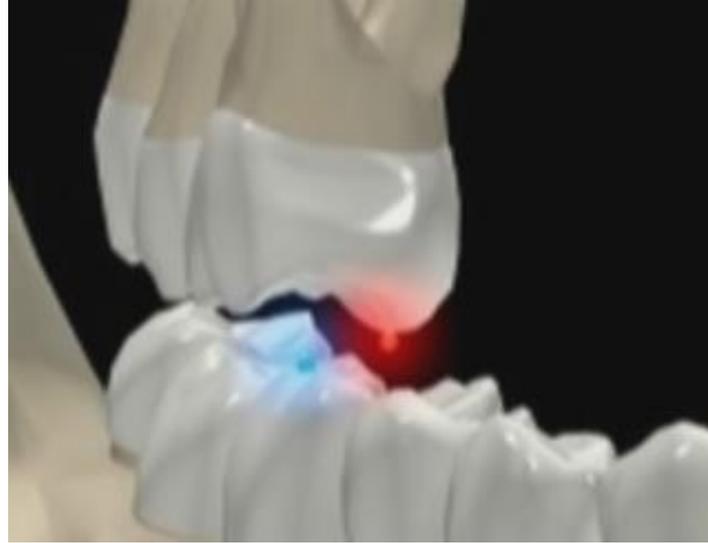

- Fosas funcionales
- Cúspides de soporte
- Rebordes marginales
- Relación de molares
- Relación de premolares

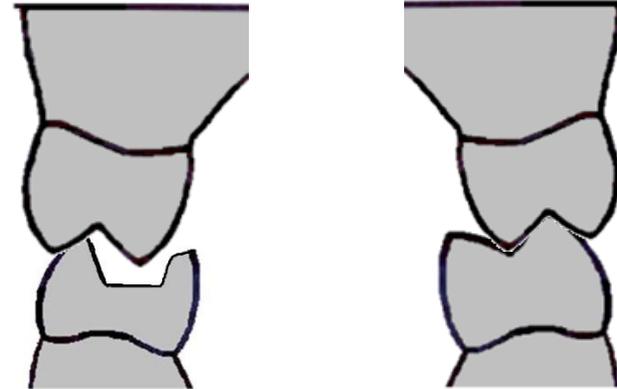

Fractura reiterada de la obturación OM en el 46

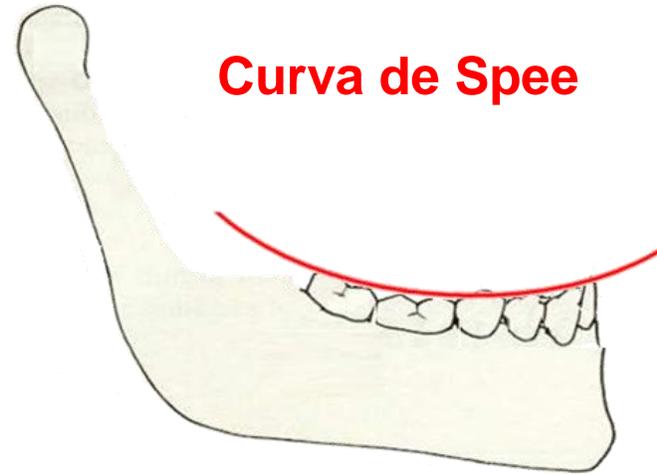

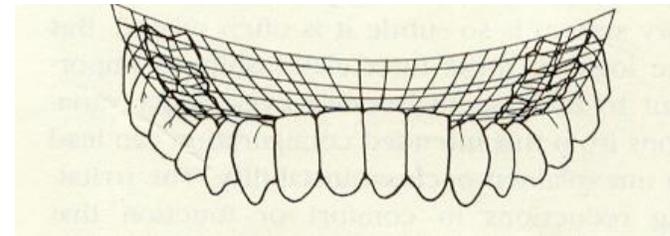

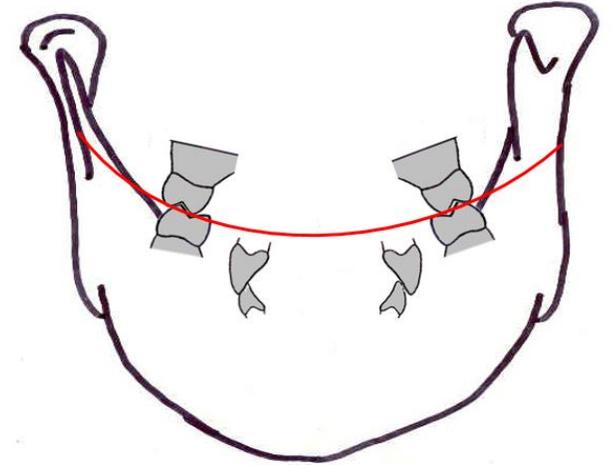

**Cúspide
prominente**

- Análisis del **plano oclusal**

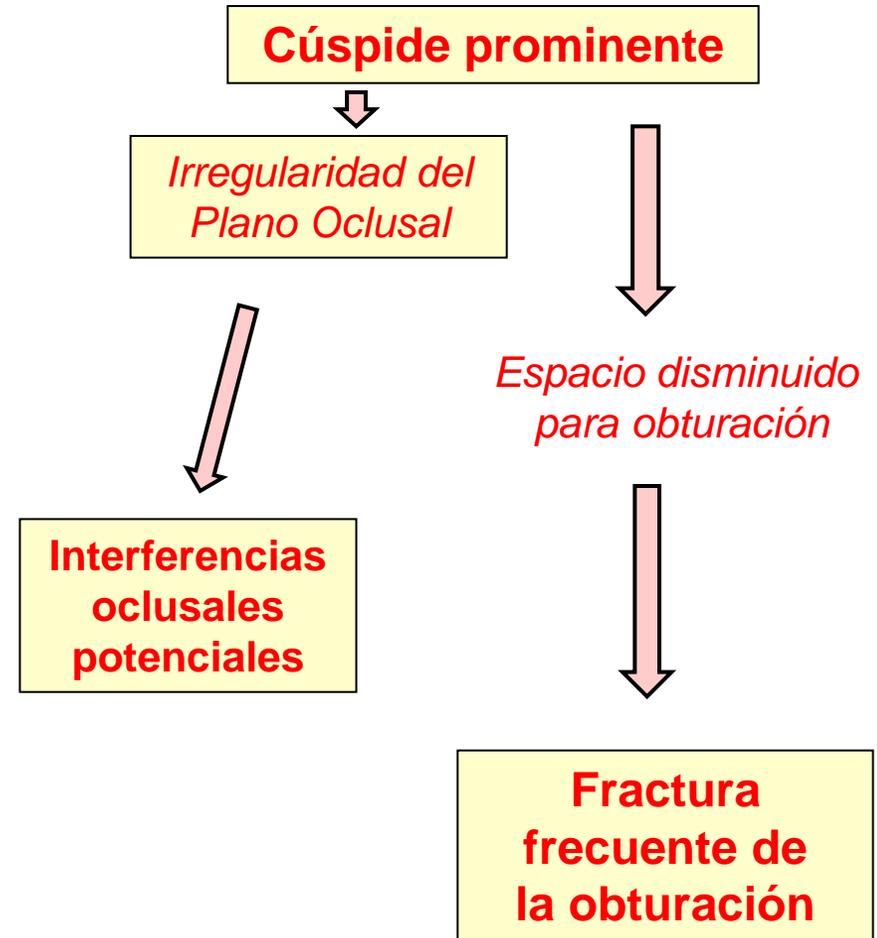

Curva de Wilson

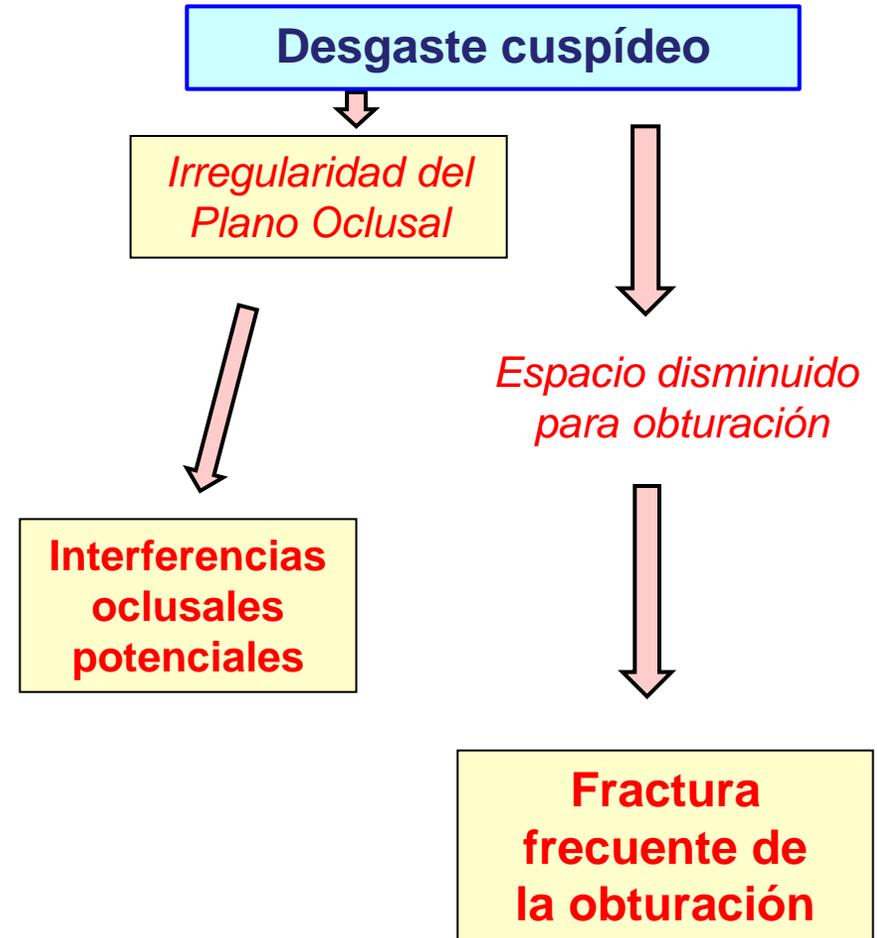

PLANO OCLUSAL

Fractura reiterada de la obturación OM en el 46

Fractura reiterada de la obturación OM en el 46

Fractura reiterada de la obturación OM en el 46

- Fosas funcionales
- Reborde marginal
- Plano oclusal (Curva de Spee y de Wilson)
- Cúspide de soporte superior (Desgaste)
- Características del material obturante (grosor)

Caída reiterada de la reconstrucción de la cúspide
MP del 16

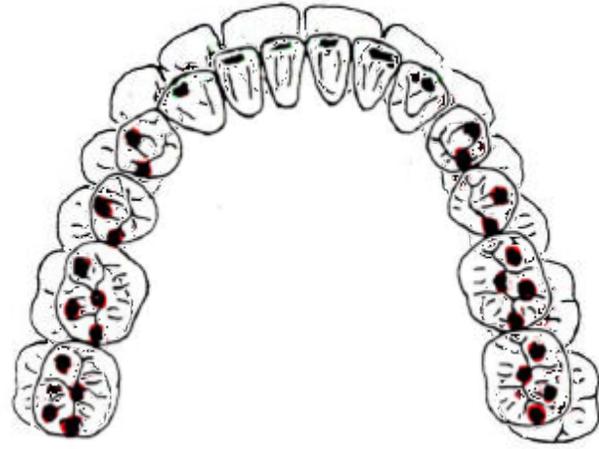

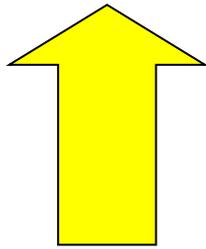

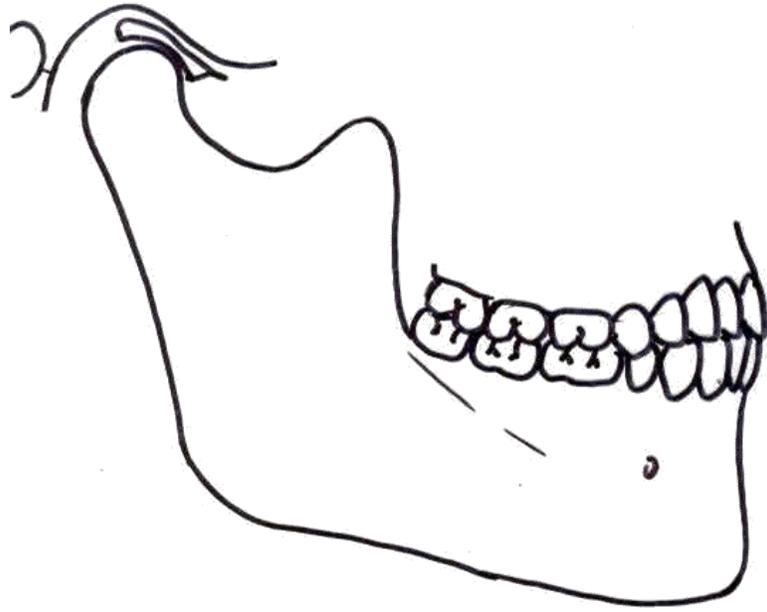

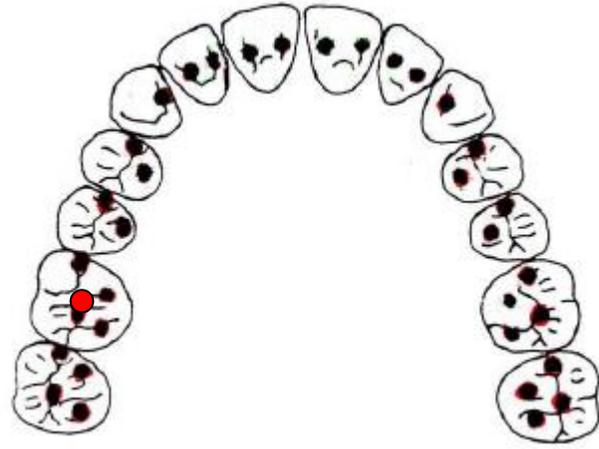

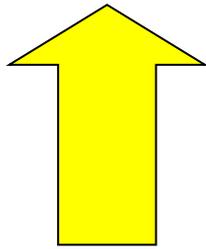

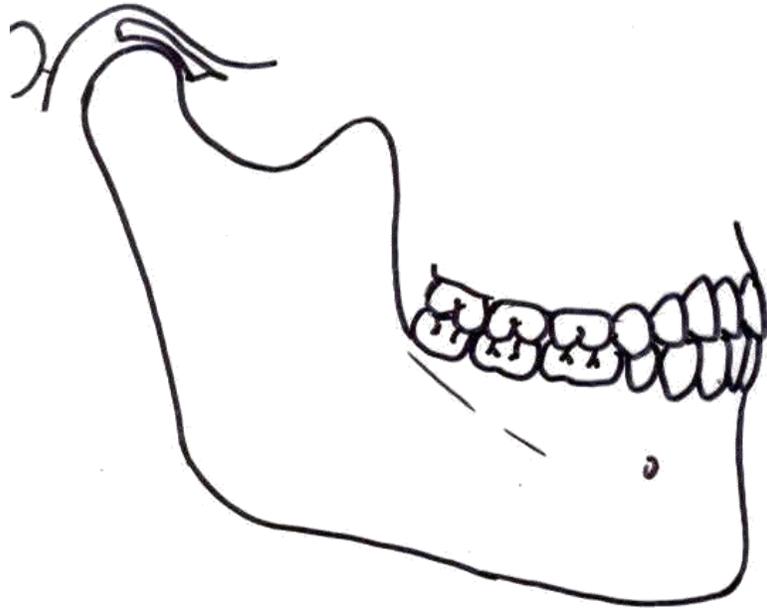

Caída reiterada de la reconstrucción de la cúspide MP del 16

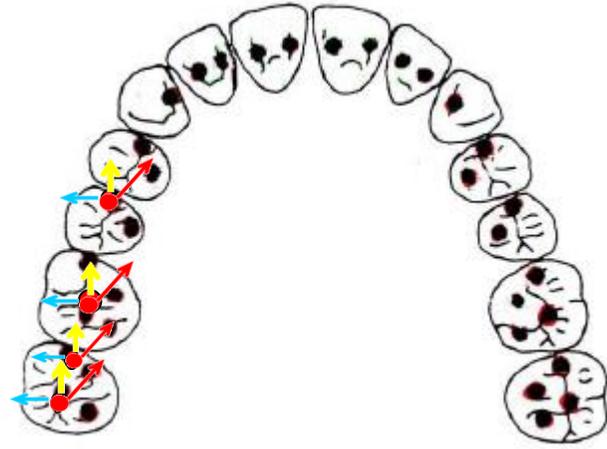

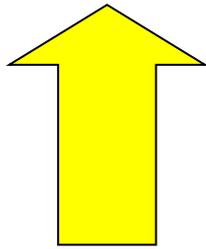

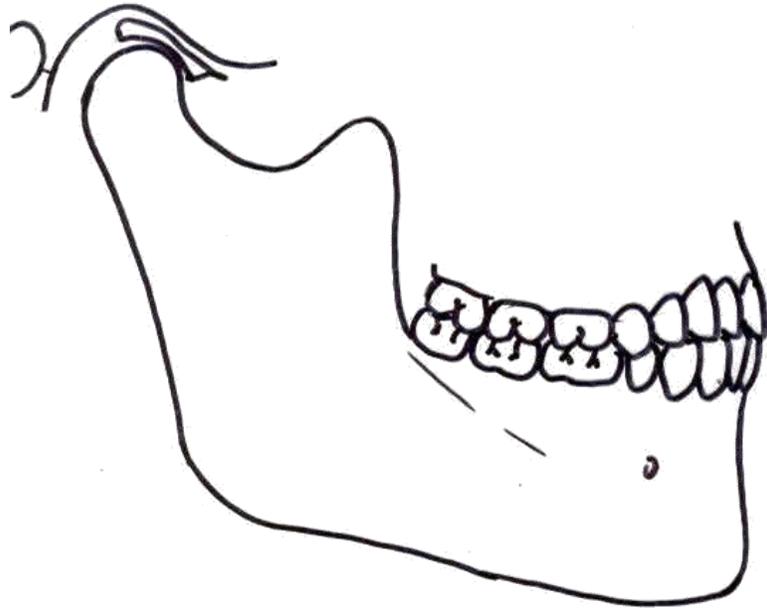

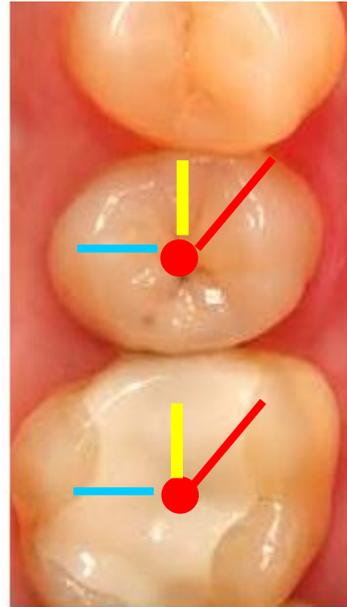

- Orientación de los surcos

- **Orientación de los surcos**
- **Fosas funcionales**
- **Contacto en PMI (*paralelogramo de Godon*)**

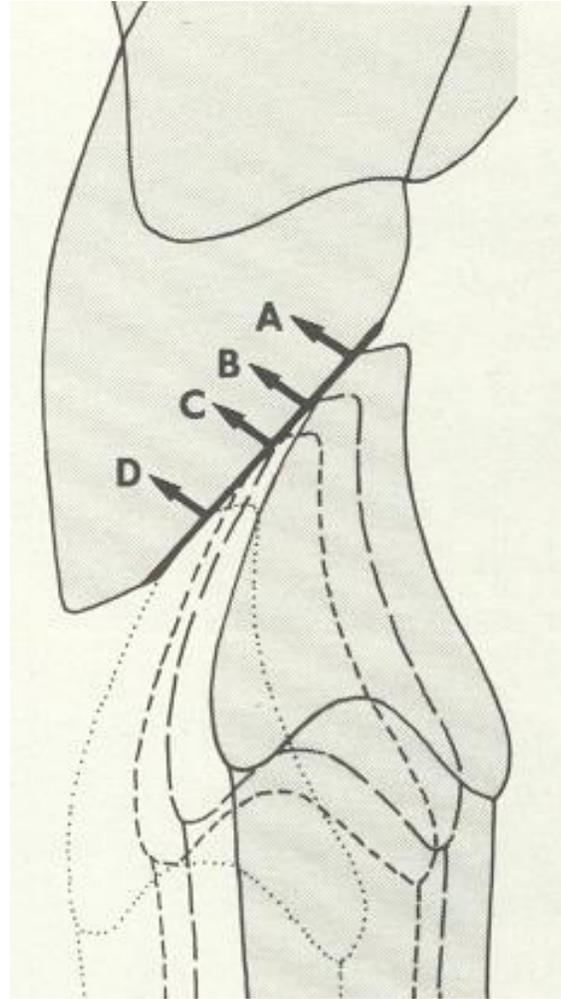

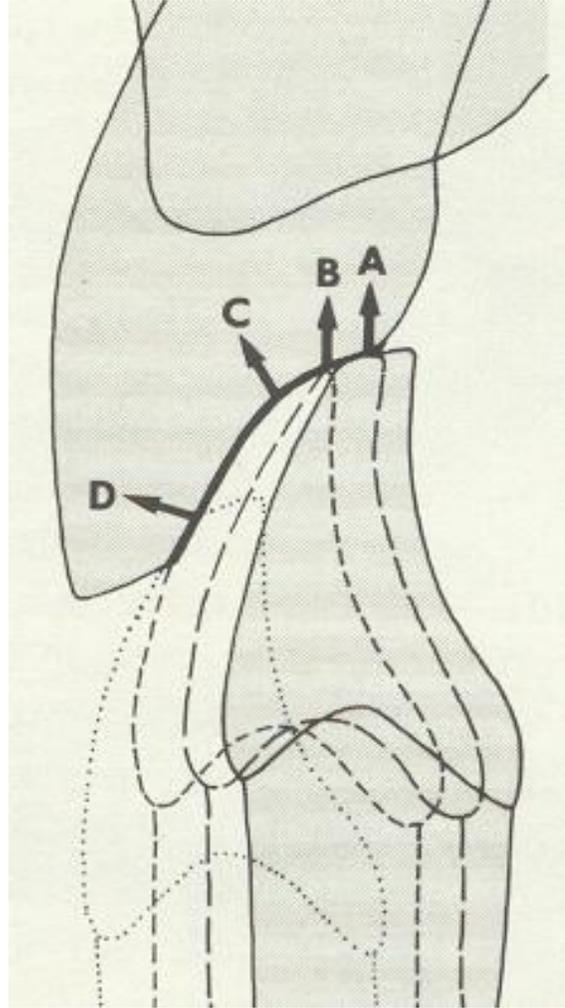

- **Altura cuspídea (*ángulo de las cúspides*)**
- **Grado de desoclusión (*función lateral*)**

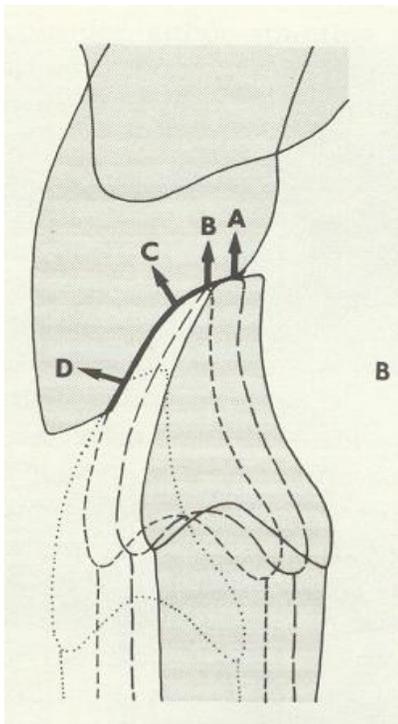

- **Clase IV de Black con cola de milano adicional/ reconstrucción con resina**

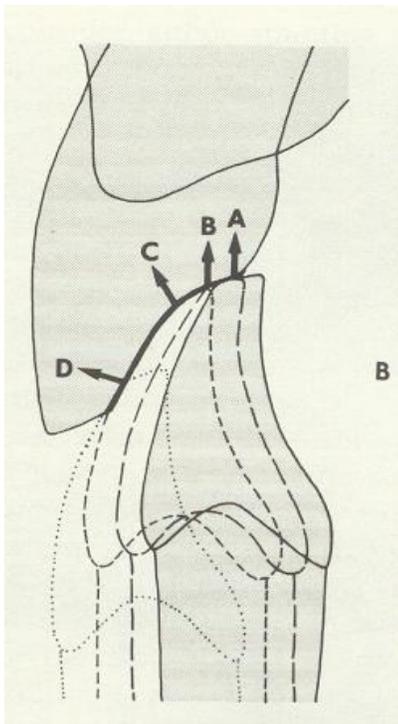

Migración del 21 hacia vestibular con sensibilidad y movilidad

- **Caras palatinas de incisivos**
- **Cúspides de soporte (grupo II)**
- **Contacto en PMI**
- **Sobrepases y resaltes**

- **Caras palatinas de incisivos**
- **Cúspides de soporte (grupo II)**
- **Contacto en PMI**
- **Sobrepases y resalte**

- **Guía anterior**
- **Trauma oclusal**
- **Relación oclusal (maloclusión)**
